\$1.2 million GDP grant monies to be brought forward

Petratherm and its JV partners Beach Energy and TRUenergy are pleased to advise that the Commonwealth Government has agreed to bring forward \$1.2 million of Geothermal Drilling Program (GDP) grant monies to assist in the preparatory work for the Paralana 3 well.

Petratherm, through its wholly owned subsidiary MNGI Pty Ltd has been allocated a \$7m Geothermal Drilling Program (GDP) grant for the Paralana JV project delivered through the Commonwealth's Australian Centre for Renewable Energy (ACRE).

A total of \$4.2 million has been spent under the GDP grant towards the drilling and fracture stimulation of the Paralana 2 well. The remaining \$2.8 million was originally allocated to be paid for activities once spudding had commenced of the Paralana 3 well.

The Commonwealth Government has agreed to bring forward a sum of \$1.2 million by six months to assist in the design of the Paralana 3 well, securing long lead plant items and to secure a drilling slot. The Company's 69% share of the grant monies will complement the \$2.3 million in funds raised under the recent Placement and the Share Purchase Plan currently underway.

The GDP grant funds will be made available to the Paralana JV after the conclusion of the planned flow test and the JV's formal decision to proceed with the planned next stage.

The bringing forward of funds will greatly assist the Company ensuring that its current timetable for producing power by the end 2012 is kept on track.
